

Airbi TALK – digital alarm clock with voice notification of time and indoor temperature

Key features

- time and indoor temperature display
- radio-controlled clock
- notification of the current time and temperature in Czech or Polish
- two wake-up times with snooze function
- display with backlight option

Description

Compared to other similar devices, the Airbi TALK digital alarm clock offers voice notifications in Czech or Polish. The alarm clock **announces the current time and temperature by voice**. You can set the device to trigger a voice notification at the touch of a button or every full hour (depending on the setting, from 7:00 am to 9:00 pm, or continuously for 24 hours).

The alarm **display shows the time and indoor temperature**.

The alarm has **two wake-up times**. It displays the exact time, which is controlled by a **DCF radio signal**. You can control the volume (low, medium, high).
