

# Airbi BLOCK – Air Dehumidifier

## Key features

- dehumidifies the air in the room
- 2 levels of fan speed
- timer
- overturn protection
- water tank with 2 L capacity

## Description

If you have problems with too damp air in your room, which is a perfect environment for creating mold, there is an excellent solution. Airbi BLOCK is capable of capturing up to 3 liters of water from the air in the room per day. It is a desiccant dehumidifier, so it functions effectively even in unheated environments such as a garage, laundry room, storage room, etc. Water can be collected in the water tank, or you can use a suitable hose and lead it from the water tank to the drain on the floor. The speed of the built-in fan can be easily controlled at the touch of a button. Additionally, a timer can be set for 2, 4, or 8 hours.

## Technical parameters

Water tank capacity: 2 L

Max. dehumidifying capacity: up to 3 L / day (+30 °C and 80 % RV)

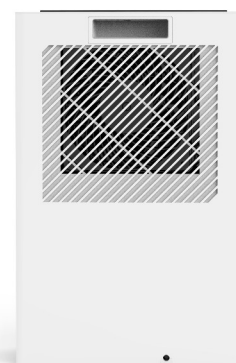

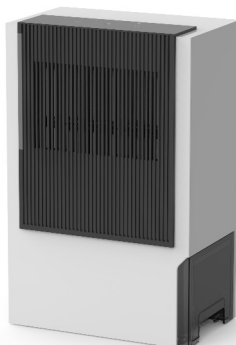

Operating temperature: 0–50 °C

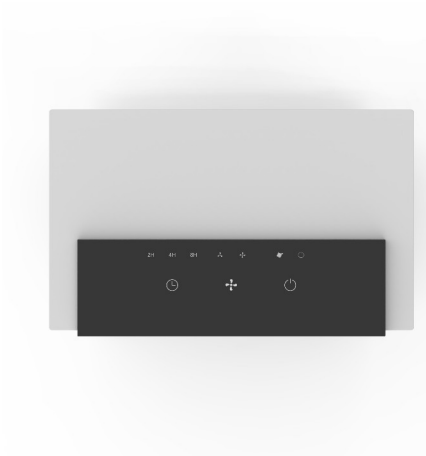

Power consumption: 200–370 W

Noise: 30–45 dB

Power input: 220–240 V, 50/60 Hz
